OSM/OSMP PVC SLEEVES AND MARKERS / PAROCUT SLEEVES AND MARKERS

A Polyvinyl Chloride material conforming to BS 3858. T.3 and Def.Stan.59-15 T.D1

This material, either printed or plain, is used extensively as a cable marker. It is particularly suitable where overall cable diameters have to be kept to a minimum.

Printing is permanent and in accordance with the requirements of the BS specification.

In addition to the international resistor colour code markings, OSM SLEEVES may be cut and marked to customers' individual needs. This material is also available in continuous sleeving in coils of 100m, with most sizes and colours available from stock.

Typical performance details-

Temperature Range : - 65°C to +70°C
Colour Fastness : Standard 6.
Fluid Resistance : Iso-Octane/Toluene

Reference No.	M05	M075	M10	M12	M15	M20	M25	M30	M40	M55	M75	M100	M150	M200	M250
Internal Diameter mm	0.5	0.75	1	1.2	1.5	2	2.5	3	4	5.5	7.5	10	15	20	25
Std. wall thickness mm	0.3	0.3	0.3	0.3	0.3	0.35	0.35	0.35	0.35	0.35	0.5	0.5	0.5	0.5	0.5

Mineral Oils.
Colour Availability : Black, Brown, Red, Orange, Green, Blue, Violet, Grey, White and Pink.

All dimensions given are nominal. Check with sales office for 3858:1992 size and availability. Other sizes are available to special order.

PAROCUT SLEEVES AND MARKERS

A Polyvinyl Chloride material to BS 3858. T.3 and Def.Stan. 59-15 T.D1

Partially cut PVC cable markers and sleeves which are designed to give quick and easy "break-off" .

Markers are supplied in strips of up to 100 pieces or in continuous lengths to special order. Plain sleeves are supplied in continuous lengths of up to 100m.
